

Akash Prajapati

AWS Cloud & DevOps Engineer

India — +91 7701876565 — akashprajapatidevops@gmail.com

LinkedIn: linkedin.com/in/akkuakash786 — GitHub: github.com/akkuakash786

Summary

AWS-focused Cloud & DevOps Engineer with **2.5+ years of experience** managing production workloads on AWS and Azure. Strong expertise in **AWS infrastructure, Kubernetes, CI/CD automation, Terraform, Linux administration, and cloud security**. Proven ability to improve reliability, optimize costs, and automate operations in enterprise environments.

Technical Skills

AWS Services: EC2, VPC, IAM, S3, RDS, Auto Scaling, ELB, CloudWatch

Containers & Orchestration: Docker, Kubernetes (EKS/AKS)

CI/CD & DevOps: Jenkins, GitHub Actions, GitLab CI/CD

Infrastructure as Code: Terraform (modules, state, workspaces)

Monitoring & Logging: AWS CloudWatch, Azure Monitor, Prometheus (basic)

Scripting: Shell, Python (automation)

Operating Systems: Linux (Ubuntu, RHEL), Windows Server

Version Control & Tools: Git, Nginx, ServiceNow

Professional Experience

DXC Technology

Oct 2023 – Present

Analyst II – Cloud Engineer

- Managed **AWS and Azure cloud infrastructure** supporting **40+ production and staging workloads**
- Provisioned and managed AWS resources including **EC2, VPCs, subnets, security groups, IAM roles, and S3**
- Implemented monitoring and alerting using **AWS CloudWatch** to improve system reliability
- Automated operational tasks using **Shell scripts**, reducing manual effort and errors
- Administered Linux and Windows servers including patching, access control, and troubleshooting
- Applied **IAM policies and least-privilege access** to ensure cloud security compliance
- Led **cost optimization initiatives** by identifying unused and oversized AWS resources
- Provided on-call support and performed **root cause analysis (RCA)** for production incidents

DXC Technology

Feb 2022 – Oct 2023

Associate Professional Software Engineer

- Supported cloud infrastructure operations ensuring high availability and performance
- Configured and monitored network security controls including firewalls and access rules
- Implemented MFA and access management for enterprise systems
- Streamlined Linux and Windows **patch management**, reducing vulnerabilities
- Automated routine administration and provisioning tasks
- Worked with **ServiceNow** for incident, change, and request management

Projects

Terraform AWS Infrastructure Automation

- Designed reusable **Terraform modules** for provisioning AWS infrastructure
- Implemented **remote state management** and environment isolation
- Used workspaces to manage **dev, stage, and prod** environments
- Improved deployment consistency and reduced manual provisioning effort

Certifications

- AWS Cloud Practitioner
- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Azure Administrator Associate (AZ-104)
- Microsoft Azure Solutions Architect Expert (AZ-305)

Education

B.E. in Computer Science and Engineering
Sri Eshwar College of Engineering (Anna University)

2018 – 2022
